Questions to Ask the Product Owner or Developer

1. If Anagram is still work in progress, why is it visible to the users?

2. Could you please confirm if the application can used in both web and mobile?

3. Do we need to accept white spaces or empty strings as palindromes?

4. Could you confirm if the word **reserved** from the message is correct**?**

Assumed Answers

1. We can hide the Anagram feature when we go live.

2. Application can be accessed on any device.

3. Its bug and we should not accept white spaces.

4. It's a typo or a mistake, it will be addressed in the next test cycle.
